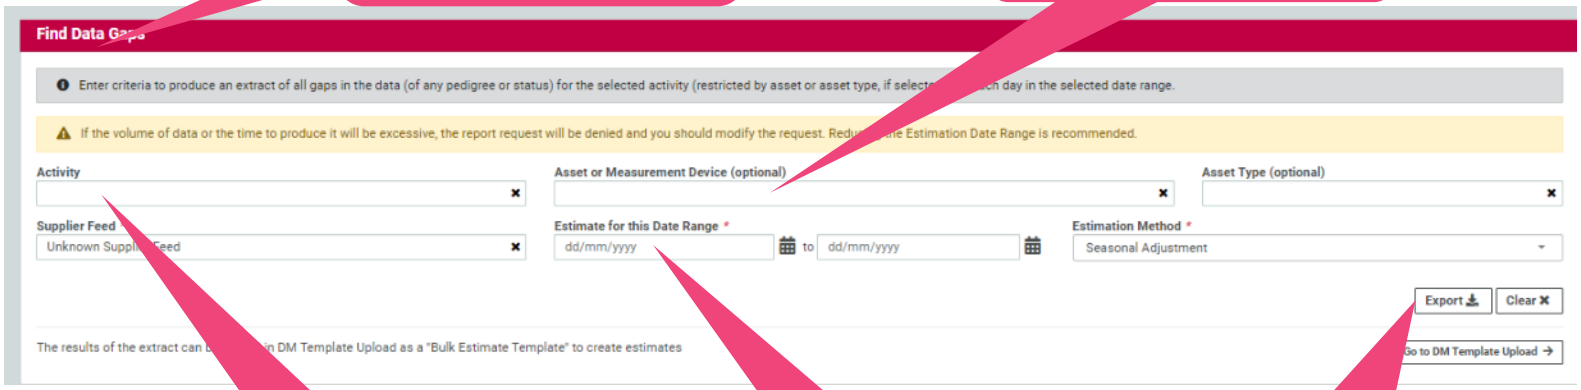
Find Data Gaps / Bulk Estimate

This is a 2 step process

1. Run the “Find Data Gaps” report to find data gaps to fill with an estimate
2. Upload the report to create estimates for data gaps

Select ‘Find Data Gaps’ from the ‘Data Management’ menu and enter an activity and date range

You can do estimates for just one asset or asset but this is optional



Choose the activity to create estimates for by starting to type the activity name then select from the options provided

Enter the month range you want to create an estimate for

You can change the estimation method, (not recommended)
Click export to create the report

Find No Data

Open the Spreadsheet then
> Delete any rows that have an inactive asset
> Delete any rows that have an inactive Measurement Device
> Review the Device Exchange Date From/To fields and delete rows that would create data outside this range

	A	B	C	D	E	F	G	H	I	J	K	L	M	N

The status will change from "UPLOADED" to "PROCESSING" to "SUCCESS"…unless there are errors

If the Status changes to "ERROR" download the Error file and review
- Rows with no error message have been successful (do not reload)
