Multi-Comparison Report

This report lets you choose either an asset or an organisation to run the report on

Multi-Comparison Report

Extract data for one asset or organisation across a month range, for up to three series (activity | asset attribute | organisation person type).

Notes on Series 3:

It is recommended that an Asset Attribute or Organisation Person Type series should be Series 3. The values for Series 3 shown on the chart are adjusted to fit against Series 2. Actual values for Series 3 will be shown in the Series3 worksheet.

Extra Notes:

A maximum of two Activity series can be selected. Asset Attribute series can only be selected if the Entity Type = Asset. Organisation Person Type series can only be selected if the Entity Type = Organisation.

Select criteria (including a month range of up to 24 months) to create your report.

Entity Type *

Asset

Organisation

Click on the down arrow and select Asset or Organisation

Select criteria (including a month range of up to 24 months) to create your report.

Export  Clear 

Choose "Organisation Person Type"
(if organisation selected)
Or "Asset Attribute" (if Asset
Selected)

Select from the available
attributes/person types

Once all fields are entered
click "Export"

Multi-Comparison Report

The report produces multiple worksheets:

- The first worksheet provides a graph showing the 3 series selected
- The other worksheets show the monthly data in table form

Multi-comparison Report

The first series is plotted against the left-axis

The second series is plotted against the right axis

The third series is scaled to plot against the left axis (but doesn't relate to the units shown on the left axis)
