Done

Select the month and year from the drop down and then click "Done"

Export

Click "Export" to export the report to Excel

Organisation and Asset Total Usage/Cost

This report shows any asset with a relationship that is current in the month range and its related organisation
The values shown are for the Organisation and include any allocation % applied

Shows the CO2-e for each quantity value

Shows the organisation name the asset is linked to

Shows the activity and its unit to the right

Shows the value for the quantity/cost for the activity allocated from the asset to the organisation

Shows the asset name
